

High Country Conservation Center & Summit County Libraries Present:

# Seed Starting & High Alpine Gardening

Tuesday, April 17 / 5:30pm / Buffalo Mtn. Room, Frisco Library

Are you ready to get a jump start on gardening? Join HC3 as expert gardeners, and High Country CSA Farmer Kyla LaPlante, instruct you on how to start seeds indoors in preparation for gardening season. Summit County's short growing season makes it hard to grow plants that take longer to mature, but starting seeds is a great way to get a head start.

Get answers to your gardening questions at this free workshop!
